THE FIRM EXPANDS ITS NORDICS FOOTPRINT TO BEST ADDRESS THE REGION'S GROWING NEEDS

Helsinki – Leading global professional services firm [Alvarez & Marsal](#) (A&M) continues its growth in Europe with the launch of its first office in Helsinki, [Finland](#). The Helsinki office opening marks the continuation A&M's expanding presence in the Nordics building upon the firm's Oslo office opening last year, demonstrating its commitment to the region.

This expansion aligns with the recent hiring of Managing Director [Kristoffer Ståhlbröst](#) to lead the overall Nordic Restructuring practice and the promotion of [Bertrand de Robien](#) to Managing Director in Stockholm to further expand the transaction advisory offering in Sweden.

The Helsinki office will be led by [Dan Andersson](#), a Managing Director with the European [Restructuring & Turnaround team](#). The office will initially offer restructuring services combined with A&M Nordics' broader practice groups including [Corporate Transformation](#), [Private Equity Services](#), and [Global Transaction Advisory Group](#) offerings.

Mr Andersson commented, "A&M continues to solidify its Nordic market presence and market differentiation through utilising hands-on expertise combined with our global network of professionals. As Finnish companies continue to battle the impacts of COVID-19, we are well positioned to help clients revisit their business plans and capital structures, by ensuring liquidity buffers for a prolonged return to stability to best maximize value."

Mr Ståhlbröst, Managing Director and Head of A&M Nordics Restructuring Practice, said, "The Helsinki office furthers the firm's strategic growth plan in the Nordics, while simultaneously supporting our Oslo and Stockholm based lines of service. Utilising A&M's leadership, action, results approach, I look forward to working with Dan and the team to lay the foundation of our offering in the region. Our operational heritage, combined with our local market expertise enhances our ability to help clients navigate their challenges and solve for their concerns."
