

RANAJIT SAHU

MANAGING DIRECTOR

BENGALURU

quick facts

- 13+ years of strategy consulting and industry experience in metals and mining
- Expertise in end-to-end business and digital transformation
- Specializes in driving value-based engagements and improving process efficiency

Ranajit Sahu is a Managing Director with Alvarez & Marsal Business Transformation Services in Bengaluru. He specializes in driving large-scale, value-based business and digital transformation programs across Indian conglomerates, private firms, and public sector entities. His primary areas of concentration are operational excellence, including greenfield and brownfield mega capital project management, owner project management office (PMO) operations, and EBITDA improvement programs across industry verticals.

With more than 13 years of consulting and industry experience, Mr. Sahu has worked with various metal and mining firms, mine developers and operators, engineering, procurement and construction players, and related ministries across India.

Prior to joining A&M, Mr. Sahu spent more than 11 years in the Natural Resources practice at Accenture Strategy in Mumbai, most recently serving as Managing Director and Lead of Mining for Accenture in India. He led a large-scale digital transformation and performance improvement program for the world's largest coal mining company, based in India. He was involved in the digitalization of select mega-mines and helped improve the performance of mining operations. He also helped one of the world's largest steel manufacturing companies to set up the largest greenfield capital project in India and run PMO operations to ensure the project's timely completion. Prior to that, he worked for the Steel Authority of India Limited.

Mr. Sahu earned a bachelor's degree in instrumentation and electronics engineering from the College of Engineering & Technology, Bhubaneswar, and a postgraduate diploma in management from SP Jain Institute of Management and Research, Mumbai. He is certified in Analytics-Powered Strategy by the Kellogg School of Management, U.S. He is also an INSEAD-certified Strategy Professional and is certified as a Sustainability Excellence Associate by Green Business Certification Inc.
